10th October 2003

Samantha Skyring
Twenty Thousand Drums

Dear Samantha,

I would like to take this opportunity to commend you and your team on the excellent work you are doing in creating your drumming initiative.

The obvious enjoyment and feeling of empowerment it gave to all involved in the launch of the Muldersdrift Info Centre Project was phenomenal and most well received by Minister Valli Moosa and Cheryl Carolous of S A Tourism, Terry Tselane, CEO of Gauteng Tourism Authority and his team, as well as the various officials and media present that day was phenomenal.

The children and staff of Lesego Primary School were all obviously delighted at their participation and our only 'complaint' would have to be that we only had the funds to work with 100 children instead of the whole 300 children attending that school.

We are looking forward to working with Twenty Thousand Drums and our team in the New Year to involve the other rural schools in this area, which incorporates the Cradle of Humankind World Heritage Site, in a joint initiative between ourselves, The Crocodile Ramble, the private and public sectors.

Yours sincerely,

Marian Brooke
